Reborn

A timeless collection aiming to enhance the concept of "elevated simplicity," where color, durable and natural materials, accentuated by refined and striking details, remain key.

In essence, this mid-season collection focuses on well-designed essentials that bring personality and pleasure to everyday life.

It celebrates warmth, security, and extravagance in designs meant to be cherished for a long time, as well as the lightness that comes from shedding the unnecessary and living with less.

Doshka recognizes its customers as individuals and draws inspiration from them to create diverse, versatile, and timeless product collections.

A scenic landscape featuring a calm lake reflecting the surrounding mountains and sky. The foreground is filled with large, smooth, light-colored rocks on a dark pebbly shore. The water is a deep teal color, mirroring the green and blue tones of the mountains and sky. The mountains are steep and covered in dense evergreen forests. The sky is overcast with soft, grey clouds. The overall mood is serene and majestic.
